Education

AMC Engineering College **2021 – 2025**
Bachelor of Engineering in Computer Science (CSE) *CGPA – **8.37 / 10***

Certifications

- Postman API Automation – Udemy
- Playwright JS/TS Automation – Udemy
- Project Management – Great Learning
- Java – HackerRank

Experience

Junior Software Quality Assurance Engineer **Aug 2025 – Present**
Vrio Digital Solutions *Bangalore, Karnataka*

- Executed end-to-end functional test plans and tracked test coverage using **XRay** integrated with **Jira**, ensuring complete feature verification across Agile sprints.
- Collaborated closely with developers to reproduce, debug, and verify defect fixes, ensuring accurate issue resolution and improving overall application quality.
- Used **Google BigQuery** to validate backend datasets, confirming data accuracy and system integrity during test cycles.
- Self-initiated a **Playwright/TypeScript** automation framework outside core responsibilities, converting manual regression cases into an automated UI and API suite to build toward SDET-level tooling skills.

Full Stack Developer Intern **Jan 2025 – May 2025**
Besant Technologies *Bangalore, Karnataka*

- Developed hands-on experience with full-stack application development and front-end/back-end integration using **Java**, **JavaScript**, **HTML**, **CSS**, and **MySQL**.
- Collaborated with cross-functional teams to develop responsive application components, integrate frontend and backend functionality, and improve overall user experience across project deliverables.

Projects

OrangeHRM Test Automation Framework | *Playwright, TypeScript, Node.js, GitHub Actions* **Sep 2026**

- Engineered a scalable **Playwright + TypeScript** automation framework using the **Page Object Model**, implementing **10 reusable page objects** across Authentication, Admin, Employee (PIM), and Dashboard modules with **smoke and regression** test suites.
- Developed reusable **custom fixtures** and authentication state management using **storageState**, with externalized JSON test data to improve test reusability, maintainability, and execution efficiency.
- Automated **REST API testing** with Playwright Request Context, covering **CRUD workflows** and dashboard API validation, and integrated **GitHub Actions CI/CD** with HTML/Allure reporting and automated failure diagnostics.

SGE – Smart Growth Engine | *Manual Testing, Jira Xray, SQL, BigQuery, Firebase* **Jan 2026**

- Performed end-to-end manual testing of Veolia's global facility-management application, covering WWTP/WTP facilities, GeoMap, filters, facility details, ownership, workforce data, and geographical locations, with validation against the facility table.
- Created and executed **500+ test cases** using **Jira Xray** across functional, UI, chatbot, database, regression, positive, negative, and boundary scenarios; tested **100+ chatbot queries** for response accuracy and facility-specific information.
- Validated backend data using **BigQuery SQL and Firebase**, identified and tracked **100+ defects** in Jira, and performed defect retesting and regression testing to ensure application quality and data consistency.

Technical Skills

QA Tools: Jira, Postman, Playwright, K6

Scripting & Languages: Java, JavaScript, TypeScript, SQL

Testing Methodologies: End-to-End Functional Testing, API Testing & Automation, Agile/Scrum, Regression Testing

Infrastructure & Data: Google BigQuery, MySQL, GitHub, VS Code

Soft Skills: Cross-team Communication, Defect Debugging, Problem Solving, Time Management, Fluent English

Leadership / Extracurricular

- Won **1st Place** in the UDAAN 2023 inter-department volleyball tournament at AMC Engineering College, recognized for teamwork, coordination, and performance under pressure.
